1 inch = 2,55 cm

Weights refer  
to items in 750‰

Some items can also  
be manufactured  
in platinum 950‰

# Etrusca

## COLLECTION

Since its founding, the Etruscan civilization has specialized in the ancient practice of gold granulation, a refined and elegant workmanship technique whereby the surface of a jewel is decorated with small spheres of gold according to a design pattern.

Jewels, thus obtained, were unique, rich and very luxurious and they've helped in characterizing the Etruscan Age as a bright example of the "craft of jewelry".

**The Etruscans have always been considered real masters in goldsmith's art.**  
*Gli etruschi sono sempre stati considerati dei veri e propri maestri nell'arte orafa.*

*Sin dalla sua fondazione, la civiltà etrusca si è specializzata nell'antica pratica della granulazione dell'oro, una tecnica di lavorazione raffinata ed elegante che consisteva nell'applicazione di piccoli grani d'oro saldati tra loro in modo da creare un disegno prestabilito.*

*I monili ed i gioielli, così ottenuti, erano unici, ricchi e particolarmente sfarzosi ed hanno contribuito in maniera preponderante a caratterizzare il periodo etrusco come fulgido esempio del "mestiere della gioielleria".*
